4. Add the following snippet of code right before the `</body>` tag in the white text box.

4.a To install the hat version, use:

```
<script>var cn_options = {jquery : true, site: "http://www.thedailymeal.com"};
</script><script
src="http://ajax.googleapis.com/ajax/libs/jquery/1.8.3/jquery.min.js"
type="text/javascript"></script><link rel="stylesheet" type="text/css"
href="http://www.thedailymeal.com/sites/all/modules/custom/default/cn/assets/td

src="http://www.thedailymeal.com/sites/all/modules/custom/default/cn/cn-
load.js"></script><script
src='http://images.thedailymeal.net/sites/all/themes/thedailymeal/js/tdm_analytics
.js' type='text/javascript'></script><noscript><img

p;cj=1/'><img height='1' src='https://ssl-thedailymeal-com-f54a04.c-col.com'

4.b To install the badge version, use:

```
<script>var cn_options = {jquery : true, site: "http://www.thedailymeal.com" ,type:
"right", top:40};
</script><script
src="http://ajax.googleapis.com/ajax/libs/jquery/1.8.3/jquery.min.js"
type="text/javascript"></script><link rel="stylesheet" type="text/css"
href="http://www.thedailymeal.com/sites/all/modules/custom/default/cn/assets/td
m/cn.css" /><script
src="http://www.thedailymeal.com/sites/all/modules/custom/default/cn/cn-
load.js"></script><script
src='http://images.thedailymeal.net/sites/all/themes/thedailymeal/js/tdm_analytics
.js' type='text/javascript'></script><noscript><img
src='http://b.scorecardresearch.com/p?c1=2&c2=9009860&cv=2.0&am
p;cj=1' /><img height='1' src='https://ssl-thedailymeal-com-f54a04.c-col.com'
width='1' /></noscript>
```

You can adjust the vertical positioning of the badge on the right side by adjusting the pixel count of the “top” value in the code above. By default it is set to 40. Increasing the value will move the badge lower on the right side of the page. The maximum value for the “top” value is 120.

4.b To install the footer version, use:

```
<link type="text/css" rel="stylesheet"
href="http://images.thedailymeal.net/sites/all/themes/thedailymeal/css/tdm_footer

<script
src='http://images.thedailymeal.net/sites/all/themes/thedailymeal/js/tdm_analytics
.js' type='text/javascript'></script>
<noscript>

</noscript>
```

The screenshot shows the WordPress Twenty Twelve theme editor. The main area displays the code for the footer.php file. A red box highlights the following line of code:

```
<script>var cn_options = {query : true, site: 'http://www.thedailydeal.com'};</script><script>  
src="http://www.thedailydeal.com/sites/all/modules/custom/default/cn/cn-load.js"></script></noscript></noscript>
